40

THE FUTURE

Major items in 2021 proposed regs not in 2022 final regs

41

No change to participant count

- ▶ Proposal: Base small plan status on participants with account balances
 - ▶ Applies to small plan audit exemption
 - ▶ Applies to eligibility to file 5500-SF
- ▶ Example
 - ▶ 403(b) plan has 200 participants but only 25 have balances
 - ▶ The rest don't defer
 - ▶ Today must file as large, audited plan; not so under proposal
- ▶ Not adopted yet!

42

The Future – Changes not yet implemented MEP filing

- ▶ Schedule DCG (Individual Plan Information) to provide individual plan-level information for defined contribution pension plans covered by a DCG
- ▶ Schedule MEP (Multiple Employer Pension Plan). MEPs would report information specific to MEPs, including the ERISA section 103(g) participating employer information.
- ▶ Transfer the participating employer information from the Form 5500 Annual Return/Report to the Form M-1 for all multiple employer welfare arrangements that offer or provide coverage for medical benefits.

43

The Future – Changes not yet implemented

- ▶ Update Schedule H and instructions to standardize the schedules of investment assets required to be included in the annual return/report (Schedule H, line 4i Schedules), so that the information can be entered or imported for improved electronic use and transparency.
- ▶ Add trust questions to the Form 5500, the Form 5500-SF, and the IRS Form 5500-EZ, regarding the name of the plan's trust, the trust's EIN, the name of the trustee or custodian, and the trustee's or custodian's telephone number.

44

The Future – Changes not yet implemented 5500, SF, and proposed Schedule DCG

- ▶ Add a nondiscrimination and coverage test question that was on the Schedule T before it was eliminated.
- ▶ Add a question for section 401(k) plans about ADP test (current year, prior year, safe harbor)
- ▶ Add a question asking whether the employer is an adopter of a pre-approved plan that received a favorable IRS Opinion Letter, the date of the favorable Opinion Letter, and the Opinion Letter serial number.

45

The Future - Reasons given for not implementing most of the September 15, 2021 proposals.

- ▶ A number of commenters suggested a delay in implementation, substantial revisions, or re- proposals
- ▶ Sufficient lead time for programming and systems changes
- ▶ Time to develop contracts and other communications among plans and service providers is needed to properly implement these significant changes to annual reporting requirements
- ▶ Employee benefit plan stakeholders are best served by the Agencies taking additional time to consider the range of public comments on these proposals and develop final rules that are cost-effective and improve the annual report data in a way that is protective of the retirement security interests of participants and beneficiaries

46

The Future - Next Steps

- ▶ Items not implemented in the September 2021 proposal will be addressed either:
 - ▶ In a further final forms revisions notice based on the September 2021 proposal, or
 - ▶ Re-proposed with modifications in a separate proposal that would focus on a **broader range of improvements** to the annual reporting requirements.

47

The Future - And Beyond

- ▶ DOL added an additional regulatory project to its semi-annual agenda as part of a separate project with the IRS and PBGC to:
 - ▶ (i) modernize the financial and other annual reporting requirements on the Form 5500 Annual Return/Report;
 - ▶ (ii) continue an ongoing effort to make investment and other information on the Form 5500 Annual Return/Report more data mineable; and
 - ▶ (iii) consider potential changes to group health plan annual reporting requirements, among other improvements that would enhance the Agencies' ability to collect employee benefit plan data in a way that best meets the needs of compliance projects, programs, and activities.
